

LONDON NOTICE No. 2863

ISSUE DATE: 22 March 2007

EFFECTIVE DATE: 2 April 2007

**OPTION CONTRACT ON EQUITY SHARES
(EXCHANGE CONTRACT NO. 201F)**

**UNIVERSAL STOCK FUTURES CONTRACTS
(EXCHANGE CONTRACTS NO. 56, NO. 58 AND NO. 66F)**

**EQUITY INDEX CONTRACTS
(EXCHANGE CONTRACT NO. 301)**

**OPTION CONTRACTS ON EQUITY INDICES
(EXCHANGE CONTRACT NO. 351F)**

**CHANGES TO MINIMUM PRICE MOVEMENT OF EQUITY DERIVATIVES
CONTRACTS**

Executive Summary

This Notice informs members of changes to the minimum price movement ("tick size") and the minimum Exchange Delivery Settlement Price ("EDSP") Price Increment of Equity Derivatives Contracts.

1. The Exchange has determined to reduce the tick size of Equity Derivatives Contracts. The following contracts will have their trading tick size and minimum EDSP Price Increment reduced:
 - (a) flexible Individual Equity Option Contracts available through Bclear;
 - (b) standard Universal Stock Futures Contracts available through LIFFE CONNECT[®];
 - (c) flexible and standard Universal Stock Futures Contracts available through Bclear;
 - (d) certain flexible and standard Index Option Contracts available through Bclear;
and
 - (e) certain standard Index Futures Contracts available through Bclear.

Web site: www.euronext.com/derivatives

The **Euronext Derivatives Markets ("Euronext.liffe")** include the markets for derivatives operated by Euronext Amsterdam, Euronext Brussels, Euronext Lisbon, Euronext Paris and LIFFE Administration and Management, referred to respectively as the Amsterdam, Brussels, Lisbon, Paris and London markets.

Euronext NV, PO Box 19163, 1000 GD Amsterdam, The Netherlands

2. Further details of the trading tick size and minimum EDSP Price Increment changes for the above mentioned contracts can be found in Attachment 1 to this Notice.
3. Given the large number of contracts involved, the Exchange has decided to implement the changes to both trading tick sizes and the minimum EDSP Price Increment in stages, with the changes for the first tranche of 41 underlyings (282 contracts) being **effective on and from Monday 2 April 2007**. Thereafter, the remaining contracts will be converted on dates to be announced in due course. Attachment 2 to this Notice has details of the contracts to be changed in the first tranche.
4. Currently, the minimum EDSP Price Increment and the trading tick size for the above mentioned contracts is the same. As a result, the rounding convention for the EDSP of cash settled Individual Equity Option Contracts and Universal Stock Futures Contracts is to round to the nearest tick size or, where the Official Closing or Opening Price¹, as the case may be, of the underlying is an exact uneven multiple of one half of the tick size, to the nearest higher tick size.
5. On and from **Monday 2 April 2007** the minimum EDSP Price Increment will differ from the trading tick size for **certain** contracts. For such contracts, the minimum EDSP Price Increment will be more granular than the trading tick size. For example, presently the tick size and minimum EDSP Price Increment for standard Universal Stock Futures Contracts based on German underlyings is 0.01. On and from Monday 2 April 2007 the tick size for standard Universal Stock Futures Contracts on German underlyings will be 0.001 and the minimum EDSP Price Increment will be 0.0001. Notwithstanding this, whilst the minimum EDSP Price Increment will in theory determine the finest possible granularity for rounding, members should be aware that in practice some underlying securities currently settle at less fine granularity which will then be reflected in the EDSP itself.
6. Updated copies of Exchange Contracts No. 56, No. 58, No. 66F, No. 201F, No 301 and No. 351F will be made available on the Euronext website (www.euronext.com) and in the London Market Handbook (www.euronext.com/londonhandbook) in due course.

¹ The EDSP for all Individual Equity Option Contracts is established by reference to the Official Closing Price of the relevant underlying security, (including physically delivered Italian Individual Equity Option Contracts), except for cash settled Italian Individual Equity Option Contracts, where the EDSP is established by reference to the Official Opening Price. The EDSP for all Universal Stock Futures Contracts is established by reference to the Official Closing Price of the relevant underlying security, except for Italian Universal Stock Futures contracts and U.S. Universal Stock Futures Contracts, where the Official Opening Price is used for these purposes.

US Flex (Bclear)	USD	0.01	0.001	0.01	0.001

¹ The rounding convention for the EDSP of cash settled contracts is to round to the nearest tick size. Due to the tick size of the underlying security, the Official Closing Price of the underlying, and therefore the EDSP, may in fact be rounded to fewer decimal places than the maximum enabled for trading.

The EDSP is established by reference to the Official Closing Price of the relevant underlying security except for Italian USFs and U.S. USFs Contracts where the Official Opening Price is used for these purposes.

Individual Equity Options Contracts

Individual Equity Options	Currency of quotation	Current Trading/Daily Settlement Tick Size	New Trading/Daily Settlement Tick Size	Current minimum EDSP Price Increment	New minimum EDSP Price Increment ¹
